

(a) $\beta = 0.2$: $\mu_{\text{obs}}(0.01) = 0.0733$

$\delta < \Delta_{\text{crit}}$: sign guaranteed

(b) $\beta = 0.8$: $\mu_{\text{obs}}(0.01) = -0.0247$

$\delta > \Delta_{\text{crit}}$: sign not guaranteed

delta < Delta[crit]: sign guaranteed

delta >= Delta[crit]: interval reaches 0

$\mu_{\text{obs}}(0.01) \pm M(0.01) \cdot \delta$

$\mu_{\text{obs}}(0.01)$

interval at the FGM distribution's $\delta(0.01)$

true $\mu(0.01) = 0.106$
