

Tipping-Point Curves — Gaussian Copula (x = 0.25)

Upper/lower bounds on $\mu(x)$ as a function of confounding strength $d(x)$.
Dotted vertical: d_{crit} (tipping point). White circle: oracle d_{true} .
Grey verticals: $d_{max} = 0.05, 0.10, 0.15, 0.20$.

Tipping-Point Curves — FGM Copula (x = 0.25)

Upper/lower bounds on $\mu(x)$ as a function of confounding strength $d(x)$.
Dotted vertical: d_{crit} (tipping point). White circle: oracle d_{true} .
Grey verticals: $d_{max} = 0.05, 0.10, 0.15, 0.20$.
